Jalisco, México • [linkedin](#) • +52 317 112 2571 • [contacto@fabrizziodev.com](mailto:contacto@fabrizziodev.com)

Over 3 years of experience in full-stack web development utilizing modern technologies such as React, Java, NodeJS, SOLID principles, and SCRUM methodology. Proficient in mobile application development with React Native + Expo and experienced in using Supabase as a database management system. Nearly 2 years of expertise in both automated and manual QA testing with Playwright and Java.

## PROFESSIONAL EXPERIENCE

### SICAR

QA Engineer

Autlán de Navarro, Jalisco

February 2024 – current

- Developed both manual and automated test cases for the company's point-of-sale system, leveraging Java for backend automation and Playwright for frontend testing.
- Utilized SCRUM as an agile methodology to efficiently manage tasks and project functions.
- Contributed to process improvement by designing and managing resources, enhancing workflow methodology, and expediting client delivery timelines.
- Generated test cases, comprehensive documentation, and clean, quality-focused code to ensure clarity and maintainability.

### Freelance Projects

Fullstack developing

Autlán de Navarro, Jalisco

Enero 2023– Current

- Engineered an automated web page management and creation system based on templates, reducing landing page development time by 95%. The system was built with React, Tailwind CSS, and SOLID principles.
- Developed a justification management system for the University of Guadalajara, encompassing form creation, resource management, and data storage using MySQL.
- Created a trivia-style mobile application for elementary and secondary school students to practice, learn, and enhance cognitive skills, developed with React Native + Expo and PostgreSQL.

## EDUCATION

### UNIVERSITY OF GUADALAJARA, CUCSUR

Bachelor's Degree in Teleinformatics Engineering

Autlán de Navarro, Jalisco

Mayo 2023

## ADDITIONALS SKILLS

- Proficient in leveraging AI tools to streamline development processes.
- Quick learner with strong adaptability to high-pressure work environments.
- Native Spanish speaker, advanced English proficiency, basic Japanese.
